there is sufficient unrest among both student and millitary circles to suggest his ultimate overthrow hasy not be long in coming.

That he has endured as long as he has is something of a record in the history of millitary regimes in recent years. Subsarro's, name has been synonomous with indonesia since the fact, ye won is independence from the Dutch in 1861.

Since then Sukarno has ruled almost unchallenged over the vast island territory that once constituted the Netherlands East Indies. 

#### Smith Confident

It is when the going is difficult that men's resilience and ingenuity are put to the test. Rhodesia, hit by trade sanctions, is reported to be getting along with the aid of home-made products replacing those no longer entering the rountry from overseas.

products replacing these no songer energing up-prine Minister Ian Smith, opening a savings -ampaign in Salibitury, said: "At the present itine our war is an economic one. Our front-line lighters are those firms and in d iv id u is is commerce, industry and agriculture and mining commerce, thouse you and present and mining with considerable ingenuity, to manufacture substitutes for those goods which have been detailed out through the imputation of anations." uld be the Hull Kit and Kabe

It could be Bobby Hull's supe

The setting is perfect for ord-breaking drama.

Also in Hull's favor is the fact the Hawks are cross-talons with the Detroit Red Wings, a club that has little fear for them this season. The Wings have specified and this too, is in Hull's favor. Detroit's asinte coach Sid Abel, probably with fingers crossed, is not sending Roger Crosier against the Helkh tonight. Hall has pumped seven of his goals past the youngster who has been given a week's holiday by his boss.

Hank Bassen will be in the Wings nets, a veterate has a reputation of being "hot" against the Hawks vever, Crozier will be his back-up goalse tonight\_asteressume regular doty Saturday against Montreal.

Hull needs 13 points in 16 games to fresh Moore's courd. It is epitic reasonable that he may do it. The first first may be a defer at 4 would likely be the one. Hull's record date is 1.00 points per game. If he keeps that up can accore 160 points.

# "Why should you switch to Food City?"

PRICE HAS A LOT TO DO WITH IT. Our policy is to have the lowest food prices in town every day . . . Monday thru Saturday . . . week after week. Take a close look at the grocery prices below. Those discount prices are the same every day of the week. They are our regular shelf prices ..... (and they're only a small sample of the total number.) The range of savings shown are fact — not poetry because we constantly "comparison shop" the major chain stores. We don't stint on quality. You'll find all the top brands at Food City. But there's nothing like a visit to really convince you.

U.K. Election

One thing that strikes one about the calling of a general election in Britain is the relatively short time — about a month — governments there allot to the business of "going to the cauntry."

country."

Britons evidently prefer to get the thing over with, in sharp contrast to the long and exhausting huslings that have been such a feature of the Canadian scene in recent years.

Usually these have been of some six weeks.

Nell Kirby and yours truly have recorded a song called "A Bunch of Peels" sure to be a miss...wago under the name of the "Two Seasons," Sar Summer and Andy Autumn. It is not available or record yet...??

I wonder why? ... this song ? ? ? Is our answer to "Juanita Banana. Which is the novelly record of the year. .. looks like banana are here to stay ... Bananas, Bananas five cents a bunch when you bite them they don't go munch . This new Kirty, Once is much ... Those is the follow up to our happy bitthasy nit.

I urge you once again to study and play later . . Things are very quiet from now until the end of the exams . . . so go to it . . .

Dave's Hideaway is about you, for you and with you, if your friends haven't read the newspaper lately tell them about the "Youth Page." I know it's rough to compete with Dick Tracey and Pogo but it's only once a week. You don't have to study the "Youth Page." Just read it.

Until a Fourth night, plus two this is mple chin) saying Shangri-la . . .

Notice . . . Congratulations to Bobby Hull and may you score 50 more.

LUBLJANA, Yugoshwia (CP)—The Russian bockey players who hemiliated the United States team 11-0 Saturday rank with the best in the N a 1 io n a 1. Hockey Learne, U.S. conch Vic Heyliger said after the yame. "This Russian team can pass, skate and shoot every bit as well as the National Hockey Learne alsows."

bockey championships.
"They are fa nt a stic bockey players."
The only department in which they might not rate with North American pros is in body contact," said Hey-liger, who played with Chi-cago Black Hawks in NHL from 1940 to 3412.

### Jet Disaster

The crash of a Canadian Pacific DC-8 as it came in for a landing in fog at Tokyo was a coasion for a company which has enjoyed a fine safety record. But coming on top of an Air India crash in the Swiss Alps and one involving a Japanese jet which crashed into Tokyo bay recently this latest disaster is a further symptom of what may simply be termed the "human predicament."

It's a "city" of 148,000 made up of the 37,000 Bell people and their families. And you find them all over Ontario and Quebec — wherever Bell serves

that's only part of what their presence means. Think of the contribution which their annus payroll of over \$300 million makes Jo our ecyplony. Think of the contribution these people make to the public and civic services of their communities. Think of the many other Canadians whose liveli-hood, directly and Indirectly, is linked to that of thiness Bill people ... Ball and its people — a major contribution to the Canadian sconner.

The provincement's decident to permit a judicial inquiry into the case of George Victor Begnera, a former potal cirk acid to have been involved in Soviet explorage activities in Canada, is a wise one.

Mr. Cardin created a stir himself with his int of past impropriety between a Conservative cannot minister in the Discinnator government and an East German woman. His remarks added a bisarre note to what casentially is a tale of government mishandling of a matter involving the security of the State.

Two inquiries are to be held. One will probe

Awo inquiries are to be neid. One will probe Canada's counter-espionage methods and the other will be a separate investigation into the case of George Victor Spence of Vancouver.

Beyond all the personalities involved, both in and out of government, the public interest is paramount. Mr. Pearson says a primary aim of paramount. An rearson says a primary aim of the inquiries will be to ensure that a balance is maintained between the legitimate and necessary security measures—of the state and the rights of individuals.

This likely means that when the inquiries are over the information reaching the public will

are over the information reaching the public will be concluded in politic and non-committati terms. We can almost predict it already: "Mr. Spencer's more was the country's security inperfilled..."

Who knows, but even if neither is the case, the public is not likely to be any the viser when the inquiries are concluded. What is cretain, country are very real. Bough has been revealed over the years on the subject of Soviet espionage in Cannats to prove this.

If the full story is every written, for all to see, if will make interruiting realings.

### "Gluegas" Anyone?

Ministers of the Crown are so accomodating these days. First there was the spectacle of Prime Minister Pearson phoning long distance to Vanouver to ask George Victor Spencer, former postal cierk said to have been linked with Soviet explonage activities in this country, to ask him if he gat he had been fairly treated in investigations

Now we have Ontario Health Minister Matthew Dymond, for reasons best known to himself, making public at least four alternatives to airplane glue that "hooked" youngsters may

Mr. Ben suggested in the legislature that it was improper for the minister to publicles for young children the alternatives to miffing glue. Now that they have been publicled, permiss. Now that they have been publicled, permiss when the property of the prope

## Communication Core of Human Activity; Methods May Vary

By BERNARD WRIGHT, B.A., B. Ed., Principal, Quoen Mary School

The story of man's progress, can be traced back some 7,000 gyarrs but the early part of the largery is somewhat vapure and its development of a primitive form of writing (whost 4,000 years ago) that a written record of gooping, events, and ideas be at gas to be handed down to positive form a fine of the progress of t

ing civilization. Many people believe that the words communication and language are synonymout. This, however, is not the case. Communication refers to any method of exchanging feets, attitude, knowledge or philosophies. People communicate with each other by giances, signals, demonstrations, pictures, symbols, words and in many other bods, words and in many other.

the social institutions — religion, education, family His, government and those supects that in make up civilitation.

In primitive times grouts, ritual tribut discues, inflictions in classifications in the contract of the

## Maniago Hull's Target For Tonight

By Geo. H. Carver Sports Editor

Perhaps the man had a point there. When a schine gun squad like Hull, Mikita, Maki, Wharram, ohns, Hay, et al go scoreless in two games, there's mething away in the principality of Paisgosia.

"I am not a hockey expert," quoth the hombre with Havans, "Nor do I hold a yen for any particular chab he National Hockey League, I've been married seven and I've got so I study things from every angle."

He rolled the hig stogle from starboard is port in his month, spat out some loose leaf, and went on: "On the other hand there is the fact that the Leafs currently are hotter than the south end of a Bretty. Add to that the fact they had reached a profile thumb late the Tains pie and pulled out a goalteeping plant had not been been a profile out to goal the fort Kang."

"They demonstrated their depth and balance when they moulted the Hawks with the shortage of power. If they maintain it heading into the stretch they abould win the league bassans. All they've got to do is play 5,000 locker, They've three points up over the Hawks with 11 games to go. The Hawks and Wings have 11 and the Towoto Leafs 14.

"All I wild, the Leafs are up and ruining. They're three points absed of the simm-happy Red Wings and rapibly closing the gap that is eparates; them from the egg-happy Hawks. His stogic had reached the nose-warming point. The i stock on his lip like a wart on an elephant. A wisp of ske curied upward and took cover under a bushy brow. He squinted back a cigar-made tear

He blinked. "The Wings have dropped back into their slump and have never been the same since they lost Barkley. True they have llowe, Delvecchio, Ulyan and other front line stalwarts plus Creaters, but the bench is nearly as hare as a sportawriter's waller."

"They'll finish in fourth spot and take ever the "role of spott-sports in the playoffs. And, my friend, anything can happen. If the Wings shake that slump-finx in the money series, there's trouble ahead for somebody."

He paused at the office door, "I understand you know y Reay of the Hawks?

## If you could go for a new brand of performance with this kind of beauty...

## ...then you don't have far to go! It's as near as your Pontiac dealer's!

Pontiac's beauty wins a lot of friends. You can tell that just by looking at it. But should you wish to find out what Pontiac's new brand of performance can do for you, you really have to drive the car. Before you do, let us tell you one thing: Once you've pulled away from the curb in a new Pontiac, be prepared to smile. You're pointed toward excite-

ment. Acceleration is quick . . . very quick. Freeway cruising is smooth and quiet. And on the roughest, twisticst roads you can find, you'll be surprised you? We do. Visit your Pontiac dealer that a car with so luxurious a big-car ride can be so agile. Before we forget the practical side of Pontiac, let's remember that each one of its 54 handsome models is a full-sized family car

priced just right for the performancelover with a budget to keep. Sound like we consider Pontiac the perfect car for today and discover why. He is listed below. The Success Car has done it again.

## Rail Travel

The contrasting approach of Canada's two major railroads to the economic realities of the major railroads to the economic realities of the day make for an interesting study. It affords also some insight into practical psychology and an understanding of the deep gulf that exists between the positive and negative approach to any problem.

Canadian Pacific on the one hand is hell-bent withdrawing from the passenger field. cently it withdrew from the Toronto-Montreal route, which it shared with the CNR under a pool train arrangement. It no longer serves the capital, Ottawa, from Toronto. The company has also thdrawn the Dominion, one of its two

withinawn the DOMINION, one of its two
transcontinental services.

This leaves the "Canadian" as Canadian
Pacific's sole rall link between east and west, The

Passengers view the lakes and virgin bash of northern contario, the superb coastline and outer, lained of Lake Superior, the wast empiriess of the prairies and the property of the superboard of the prairies and the Yet reading between the lines of Object of the Passenger of the Passenger

At an earlier session, CPR chairman N. R. At an earlier session, CPK chairman N. R. Crump told the committee that the Canadian would remain in operation for "many, many years." But later he said he was unable to guarantee the train would be running in 10 to 15

years.

Canadian National on the other hand adopts a much more cheerful attitude toward the maintenance of the railroads in the passenger business. It has coupled this optimism with practical steps to attract people to the trains. It has introduced low fare, emphasized the speed, comfort and safety of train travel and been rewarded by a new surge of public interest. rewarded by a new surge of public inter-acceptance of this mode of transportation.

acceptance of this mode of transportation.

Many people are discovering, perhaps for the first time, that travelling by train is often more convenient than going by car And a lot safer into the bargain.

As for the long-term view, 15 years is a long way off and who knows what type of transporta-tion will be in use then. But we hope that fine trains like the "Canadian," or rather its successor

## Social Evaluation

The recent conference in Ottawa on the subject of poverty in Canada produced some classic examples of modern governmental double-talk. Or "gobbledegook," as it, has come to be

4 mg, involved, descriptive passages were hurled at stupefied delegates. They listened to reports which were supposed to enlighten them on reasons for poverty in the midst of an affluent society and how the problem might be tackled. Instead many went away more confused than

they were before.

Such extrawgant language, dialogue, call it what you will is permeating our organizations to an extraordinary degree tools. Take the three Toronto boys, aged 10 to 13, who last week were taken from the control of their parents. Juvenile taken from the control of their parents. Juvenile taken though the control of their parents. Juvenile taken though the control of their parents had not been able to exert enough discipline to prevent the boys suffiling size.

exert enough discipline to prevent the boys smifting giue.

Well and good, but what are we to make of the strictures im posed on one boy. He was ordered held in custody for "social explaution," and instructed to attend a clinic for Yeating the effects of aniffing giue over a long period. The llatter makes ensee, but "social evaluation," though a tidy enough phrase, could mean awythine,

the old days, the fellow would have been in the old days, the fellow would have been given a few swift well-aimed blowe by his father, in an area of the anatomy traditionally reserved, for such discipline, and that would have been the end of it. But loday the brat has to be "understood," which means he is allowed to do as a tood," which means he is allowed to do as the day of the brat has to be "understood," which were have been the "socially evaluated." Oh, brave new world.

Opening Up the North

The development of the Yukon and Northwest itories has been a slow process. Even today e vast northern regions of Canada are largely these wast northern regions of Canada are largely underdverlooped. More than any other region of Canada the north typidies "The Unknown Country" that Bruce Hutchison for one has written about.

The north has not been tamed in the way the Soviet Union has opened up its northern territories, to the point where large cities and industries have been developed.

industries have been developed.

Sill, there is plenty of activity to suggest
that one day the Canadian north will be opened
up to a much greater degree. A wide range of
mineral deposits constitutes its greatest natural
wealth. Production of crude petroleum and
natural gas is carried on in the area of Fort
Norman, N.W.T. and there is even some coal
mining in the Yukon.

storman, N.W.T. and there were some coal mining in the Yukon.

The current commercial levier of The Canadian Imperial Bank of Commerce contains a warful survey of the region under review here, to the present line of the Canadian Imperial Bank of Commerce where, to the present line to the present. In notes for cample that the population of the Yukon reached a peak of some 27,000 around the turn of the century, declined of the turn of the century, declined of the turn of the century, declined of the turn of the complex of the turn of the control of the c

trying to get away from the heavily-fished waters and depleted game areas of south the United States

It also notes important developments in opening up communications in the north country. A ten-year road building program in the Yukon and Northwest Territories was announced recently. It calls for an investment of \$10 million a year, double the annual road investment in the us decade

previous decade.
Obviously, such communications are essential
to the general development of the north country.
One reason for its slow economic growth thus far
has been the absence of road communications.

#### They Save Dollars

The consumer public have become so accustomed to paying through the nose for just about everything — whether essential to their material needs or not — that they no longer regard it is unusual.

Inflation has always been with us, to one degree or another. And the public reacts to each sucessive increase in the cost of living merely by seeking increased wages. Tightening belts may be absolutely essential for some (pensioners for example), but for the majority of working Canadians there is money to spend — and they do spend it.

Of course, the fact that the finance

companies are doing rather well is an indication that the money loss not all come from a fellow's own pocket. The national economy is enows own pocket. The national economy is pretty-healthy and if wage-earners do not have the money readily available they can borrow it. In other words there is plenty of money in circulation (or should we say spiralling?) and that is what keeps things moving and people

working.

Still, there are folk who resent having to support a high-priced economy, symbolized by such frills as trading stamps, fancy packaging and the like. And in Ottawa there is a group

and the like. And in Ottawa there is a group which is doing something about it.

Two years ago, seven families set up a cooperative supply unit, a non-profit store which 
tirey say supplies food needs of members, at 
savings of 16 per cent under supermarket-prices. 
To-day the co-op has 75 members and recently 
homeone, larger store under a full-time 
homeone.

The co-operative idea is not new in Canada, as Roy LaBerge, one of the project's organizers, has pointed out. He says there are "a lot of co-ops in Canada," especially on the prairies and in the Maritimes, but claims his group is unique in that

Maritimes, but claims his group is unique in that it separates operating and food costs.

The basic motive of course is to save money, thrift is still one of the prime virtues, yet it is one which many have lost sight of, Governments are no better than individuals in this respect, as the reports of the Auditor-General consistently show.

#### Seal Hunt

The great seal hunt in the Gulf of St. Lawrence is over for another year. This one was held under much stricter supervision following widespread criticism of the bloodbath here and

Over in Peking, I'm told, pretty Chinese ga-ge gais are wigging their clastic oriental torses and whatsot to the stirring beats of Sam Sweet and Seer and his five Sparerits while the young hindes tap out the rhythms with rubber chop-sticks.

Back in the days when mandarins were the sitte of Chinese society before they became oranges and chop sury had not been invented in the United States, the emperor of the day inaugurated the first training camp, told the local brickleyers unions to go and eat egg rolls, and put a few million coolies in work.

Now, according to one J. F. Abenne, top beaxan of world amateur hockey, it won't take Courade Man that long to build a backey team that might well be a challenge to the best that plays on global ice.

Reports say that Alegane dropped a straner into the lars of a meeting is left-reliana, Vegeslavia where the world's best "mon-paid" positives are having at no another's threats, that Red Chian boasts a bockey sam that plays a style closer than your underwear the Cuantian type.

Proof of the existence of the Red rubber-shooters, Ahearne said, lies in the fact Poland sent a national team to Mus's bread acres, played six games in different parts of the country and were lucky to emerge with two wins out of six starts.

Red China has been a member of the international Hockey Federation for some time, but little had been rd of their puck activities.

"The Poles," said Abearne, "were very pleased with their reception in Red China. Their easily complate was that the local indextyness played it very rough."

Humm . so could it be that is why some well-rested Chinese were seen watching an OHA junior "A" other years to look gags?

The Russians themselves believe it and want to make st of the issue.

There isn't much doubt there isn't an "smateur" club in the world today that can beat them. Now, it appears, they won't be satisfied until they have a top pro scalp hanging at their collective bells.

simple . . . one of the "Lowir Spoonful" is Canadian and this justifies my choice. This group is to omnet. They have must with a special commercial appeal, not only for the wringer but for people whe rejry opp musts. Their material is colorful, tuneful and well done. Let's hope that things will work out so that we can enjoy this Batman group, in Belleville.

I have recived many questions about the Canadian muste scene, such as how are things pile. gressing on a national basis and what new gro

#### Red Cross Month

This is Red Cross Month in Canada and it is appropriate at this time to consider our dness to this great organization.

Take one vital aspect of its work — that green involving blood transfusions, which have been Instrumental in saving so many lives. In Canada hospital patients do not pay for blood. They receive it as a gift from volunteer blood donors, and the Red Cross is the agency responsible for finding donors, collecting and processing blood and delivering it to hospitals.

Some idea of the magnitude of this task may be gauged from the fact that this year the Red Cross must supply 915,000 units of blood to hospitals throughout Canada. It is not surprising to learn that this task takes thousands of volunteers, hundreds of skilled persons and millions of dollars.

And few organizations evoke such a ready

And few organizations evoke such a ready response from the public as the Red Cross. Few indeed can count on such a degree of citizen participation in its work. Every year, in Canada itself, the Red Cross administers disaster relief to more than 13,000 victims of house fires. In another sphere last year it loaned nearly 61,000 articles of sickroom equipment free to 38,000 persons who were ill at

#### Negroes in Combat

In many of the photographs of Americans in action in Viet Nam, Negro soldiers are seen fighting alongside their white compatriots. This is now of particular interest in the light of U.S.

Is now of particular interest in the light of U.S. defence department figures which show that proportionately more Negroes have died in Vetsam than other U.S. milliary personnel. Wetsam than other U.S. milliary personnel. The second of the The Negro death percentages for enlisted stand at 22.1 per cent for the Army and 12.0 per cent for the Marines.

Inevitably, this has given rise to allegations

Inevitably, this has gight rise to allegations that Negroes are being given more than their share of battle area assignments. Defence department officials have denied this, and a Penlagon spokesman observed: "It is the valor of the Negro in combat."

Statistics for re-enlistment among Negroes Statistics for re-enlistment among Negroes would seem to confirm it is not a question of discrimination. Negro first-time re-enlistments, he savely claims, run about three times as high as white re-enlistments. In 1964, the latest wailable figures on Army re-enlistments showed swallable figures on Army re-enlistments showed several to the special control of duty, compared with 18.3 per cent of the whites.

Officials is any sport have often been the target of , se from the losing side regardless of guilt or beence. More often the latter.

Top coaches in the world's top sports have been tilly of .such .activities. With particularly the stional Hockey League mentors the worst offenders.

Go to almost any bockey game these days and you'll bear frustrated fans screaming their heads off at the referee or lineamen. More often than not this is merely a way to let off the steam of disappointment while their favorites are on the abort end of the score.

Referees of world amateur hockey especially to from Europe have been notoriously inept. Mos-the time they are selected from different countries in neither official being able to speak English.

In Corting, Italy, once, two Italian referees were soliced doing a mecaroni watust after a game. They had alled but three benalties and were congratulating hemselves on a fine performance.

On another occasion when the McFarlands were playing in Germany, one official was so portly he couldn't bend over far enough to retrieve the puck, so he kitched to the boards and picked it up while hanging to the woodenware.

In tournament play in Bratislava when we (the Mics) are playing the Finns, Lammy Lamirande got a border-se penalty from some character from Upper Sobovia, namemate Al. Dewrbury skated to the official and asked

A blank look came over the Slavish face. He ddn't answer because he didn't understand "Big bo's" English. What did he do? Up came the thumb d Dewsbury went off.

Politia, the Belgrade top daily headlined "Refer-Rob Canada of Victory". Another Belgrade daily "Referees Against Canada". Yet another dlined "Referees Decide Top of Standing." It said. "In the first serious game for modals, the so-called representatives of justice began is shape the top of the standings according to their tastes. The Canadians did not lose this match. The points were taken away, from them."

The Circh gualie," the story ran," was in fact beaten three times but he - in contrast to Seth Martin of Canada - had behind him the referres who defended the Carch goal better than their own ranlies."

gualization Novotti, a aports newspaper of Zagreb described the officiating as "shameful."

Not one newspaper or covering journalist had anything good in any about the officiating. All were directly provided the control of the cont

# **EPIC-That Tough Little Car from General Motors** costs so little.

And we don't mean just the low initial cost. You've also got to consider low gas cost. You've also got to consider low gas consumption (Epic is noted for it), low

maintenance (parts and service from over 600 Chevrolet/Envoy dealers coast to coast), and durability (Epic is built to last). Add on good trade-in (GM cars keep their value), good looks, and practical comfort and you can see

why Epic/66 walks away with best buy honors. Right now, Epic/66 is at your Chevrolet/Envoy dealer's. See what a lot you get for so little.

(P.S. Ask about Epic's big brother-Envoy for '66!)

Chicago Stadium rocked and rolled to the thunderous teo-phute oration given Hall. Over 18,000 screenible in it is paroxysm of joy littered the lew with hatsy and whaten, Noise-wise it made a political convention sound like a Sunday school picnic.

Hull admitted later "I just got a piece of that puck," his blistering drive jetted it into the net just inside

The six-foot-two Cesare who has been performing hrilliantly for the Rangers since his call to NiIL suty, is a former member of the Belleville McFarlands who made a bost of friends during a brief sojourn

And knowing the modest quiet-spoken Maniago, w do no chance on the builter record-making drive, i ager that deep in his heart he's a bit proud to ha een part of an act that made hockey history.

And here in the Quinte district where interest has been running at flood level since Hell established his second 50-goals mark, the tense question "When?" got its answer Saturday night,

Ears within radio range were gloed to sets. Week-old maior was mapped with the magic "scream" of the histoga announcer "He accomponents."

At the Hull home in Point Anne where a tense nervous mother sat with some of her family, shouts of joy chocked in the house.

The now famous apple was brought from the refrigerator and a happy joy-filled mother kept her promise. She took the "record" bite.

Relaxed at last, she told me her feelings in a few

"I'm so happy for Robert."

"We did not go to Chicago so Robert did not haw the game was being breadcast here," the signed happil," Fin sure the would have metaloned wastellast about the people in his bonne district." #### Sukarno Steps Down

President Sukarno, in power in Indonesia since the country achieved its independence from the Dutch in 1948, has stepped down. And now First Deputy Premier Subandrio and 16 cabinet members have been reported arrested by the country's new anti-communist military regime.

For some time Sukarno had been trying to strike a balance between keeping communists in his government and giving them as little power ke a balance between keeping communists in data to she add a first government and giving them as little power scoresible.

The new regime is reported to have initiated a first with the power scaledown or communist.

The new regime is reported to have initiated a crackdown on communists (Indonesia has the largest communist party outside the Soriet bloc) as, well as measures to stabilities the economy. Natarno, in a sense, was the Kwame Nirumah of the oriental would. He spent large sums on building up the armed forces, acquiring most of the material from Ruesla, and in a truttle gnerfills campaign against neighboring areas of Malaveta.

iperrilla campaign against nelgiboring areas of Malayda. In recent months he has been reported in Illi-health, although he always seemed to bounce back whenever rumons circulated he was no longer at the high of affairs. Now his power has definitely been curfed and Indonesia may look forward to a new an in which there will be has emphasis on militarium and colonialism and more on orderily growth at home.

#### The New Germany

Germany, in its present state of political subjection, is difficult to view in terms of its old belligerance and desire for liebenraum. All that is past, the battlegrounds have shifted elsewhere and the country, though di

at peace.

On the economic front, however, Germany (and in this context we mean West Germany) is extremely active. The postwar restoration of the incountry is one of the industrial miracles of our rule, once again are channelling their fure worth into useful as the channelling their fure worth into useful as a lawy interested the Germans. Nevertheless, the prosperity of West Germany is such that it can extend economic aid to nearly 100 countries. This is a vindication of a country-that once waged war on its neighbors but silve concerns itself with rising the living standards of under-developed countries, as well as maintaining a high degree of prosperity for its own becole.

## Scars Remain

Parliament mercifully has drawn back from the brink. Last Friday it was rushing headlong toward some sort of fatal climax to the internecine battles over the Spencer-Munsinger

affairs.

With the return of Opposition Leader
Diefenbaker Monday it was expected the
deliberations in the Commons would reach new
heights of bitterness, with Frime Minister
Person and Justice Minister Cardin the principal
largets of the Tory applexemen.
Instead there was considerable forebearance

on all sides and the upshot was a decision to have the Gerda Munsinger affair investigated at

idicial inquiry.

But the scars of the last week or more will in. Parliament has been discredited, and yet the public, whose interests and image Canadians as usual are last to be considered little the wiser as a result of the almost disaste

little use where as a result of the happenings. The happenings will be a supported by the happenings will be a redest of the country? How well was jake acquainted with members of the former pherevalive government she calams as friends?

which likely will never be revealed.

Former Conservative Justice Minister Davie
Fulton claims that although the government had
refused to allow him to refresh his memory by
seeing the Munsinger file, he was clear in his
recollection that it was not concerned with

urity.

"They (the police) knew of her in other nnections," Mr. Fuiton hinted darkly, "and ecked on her from time to time in that respect, was as a result of none of these checks that the report in question arose

Down Mentreal way, French-speaking fans call him "Le Petit Diable" (The Little Devil).

More than 200 stitches have berring-boned his bery features during his seven years in the National ter League.

In show hix a "second hanana" reflects the glory of the star. In his case it's a "second hanana", so to speak, that is a glowing star in his own right.

Sian Mikita, Czechoslovakia's gift to Ca ofeszional hockey, does not hatbe in the glow ack Hawks Golden Jet Bobby Hull,

A former team-make of Hull with the St. Cath-arines Teepees junior "A" aguad, Mikits would be the "sop basana" on any other squad in the NHL. He wen the scoring championship for two consecutive years (1984-64) and was an all-star centre three times.

"Things come up every year," the tough little centre old an American sportwriter. "You know that someone till write a story saying that Militia and Hull are freeding ecause Mikita is jealous of Hull getting all the publicity.

"We laugh at this, Booby and I. When I first came to Chicago and walked into the dressing room, he came over and put his arm around me. He took me in and we fixed tagether for a year and a half. We have been in husiness together.

We are different kinds of players and I see what Bobby ten do as well as anyone. Bobby has the type of personality that allows him to stand and supplying the standard of the playing a game, but I'm not built that game, but I'm and built that well as the standard people of th

In the book "Bobby Hall", Mikita is quoted as asying, "I have played with Bobby cirves seasons since we were juniors together and the only thing that has changed about him is his ability. When you come from a family of circum as a Bobby does you don't really ever understand the words prima doesn."

I was with the Canadian sportswriters who inter-viewed the father in Pregge in 1839. He was ringed with Communist journalists and through an interpreter told us, "Tell boy backey no good for money, Work with machine better" or something to that effect.

Stan was brought out of the country by an aunt and cle when he was eight years of age. During that time only akating he did was when he strapped double-nner states to his boots and simulated hekkey by shing a cork along the ice with a stick.

In Canada-Sim could not speak English but learned bockey first. One of his kindergarten pals gave him a sitte and tried to explain the game. Milkita took the sitch and promptly coaked the first kild who tried to get by him. His first English words were "puck", "sitch" and "poal".

At nine he was playing in a little league, got up at and practised for type fours.

He worked his way through school by playing nl-pro bockey with other sports. He played bastam roses in 1954 and scored cight of II goals in a me. Once when returning required with Teopeen be got off the brom adjustey game with Teopeen be got off the brom good dressed in football s and scored a touchdown.

Like Gordle Howe, Mikits is an all-round bockey's per who esan't mind being a Lou Gehrig to hockey's og Ruth o'r Roger Maris to Mickey Mantle.

Second banana, my eye. The Hawks are bleased t two "bananas", each topa in his own way. And der Robert Hull will be the first to endorse that

rence and "well "otherody retile for the Fyers.

Look for the big "F"-the Freedman suit at all Fraser stores

Freedman's are not a flamboyant company. No bragging, no shouting. That's why the JACK FRASER COMPANY feel they should tell you two things-(1) Freedman's are Canada's largest importer of fine woolen fabrics (2) there's over 56 years experience in the making of every Freedman suit or coat. In other words, they're a big, capable outfit and they specialize in craftsmanship . . . good old-fashioned craftsmanship. The thing good suits are made of.

Once you've worn a Freedman suit or topcoat, you're hooked. They retain their shape because only good weight, well woven pure wool fabrics are used. That's important.

Freedman Suits . . . 12/14 oz. fabrics. The finest pic an pic, neat overchecks, small nailheads, mini-stripes. Young men's and executive models . . . two-piece suits . . . \$80. 14/17 oz. fabrics in Venetian sheen, subtle herringbone, sturdy

twists . . . two-piece suits . . . \$90.

Freedman Topcoats... the finest pure virgin wool. Spring styles include the slimmer Chesterfield model... \$75.

### 1966 and All That

If Saint Patrick were around today, to observe the extraordinary rites that have been taking place in Ortawa — the political muggings, kinlings- and solemn affirmations of moral rectitude by a candalized Parliament he might have been tempted to think times had changed.

But have they? Saint Patrick was a contemporary of Roman society, whose members were not given to melancholia. As for Saint Patrick, far from being one of the pillars of that society, did he not do time as a slave for those selfsame, fun-loving Romans?

Society, one new on current as a continuous assistance, fun-loying Romans?

Caesar might have looked on the contemporary Ottawa scene and yawand, or mused at least yo Utawa scene and yawand, or mused at least that times had not changed very much from his that times had not changed very much from his that times had not changed very much lone, for his change when the purpose of the change and expertly sensions.

But Hoil set qui mal y pena, or Phil to him who evil thin ks, as the asying goos, and Ireland's celebrated patron saint is not around to say his piece. Which is a pity, because he might have warrighed an interview with the CBC's Norman Debec on certain events that have been creating mild stir Lonands of late. What would he have had to say about modern man?

man?

We will just have to make do with today's remembrance of the saint and perhaps couple with our tosts to his memory one wishing Mesors. Cardin, Pearson, Diefenbaker, Fulton and company "Bon Voyage".

But who said they were going anywhere?

Other clabs have dubbed the Hawks as stretch-leggers and masters of the chtich-fold. And the Hawks resent it. That perhaps is perfly the reason why Bobby Hall is so flercely insistent that his efforts will be directed toward the Hawks winning the flag with his reco-d-breaking possibilities

The Count of Woodward Avenue Sid Abel does takempt to cover his dislike for Punch Imlach, Marquis of the Maple Leaf Mint, and his trusty sire Viscount Chancy of Galway Bay.

The Leafs-Wings stretch duel could well steal the nder from the clashes with the Hawks and Habs.

The Canadions have jwo games left with the Leaf.
These with the two against Chicago are the top scrape
remaining for the Habiants. If they can win three of the
fire they should cop the top spot though one win must
come against the Hawks.

HASTINGS COUNTY SALUTE

Warden Clayton Hall of Hastings County and Reeve of Touriow Township sent Bobby Hull "beartlest con-gratulations on your achievement Saturday night".

"We in Thurlow Township have always followed with keen interest your hockey career from high school days to the present and you have fulfilled the dreams of all the sportunized young and old of this district.

"We in the township and county are sincerely proud of your success and wish you and the Hawks all the best,"

One thing is certain, there is no excuse for children being cold and hungry or being without necessary medical assistance. Mr. Reynolds has quite properly asked council members to acquaint him of any such cases they know of.

In some cases welfare recipients may have only themselves to blame, because of poor nanagement of their family affairs.

Where genuine need can be proved, though, there should be no hesitation on the part of the city to see that families are provided for.

### Los Angeles Again

Further violence in a Negro district of Los Angeles shows that life there is still full of the tensions that forever lurk amid the squalld tenements and streets of the uneducated and underprivileged in the big cities of the United

But why should it be Los Angeles again? Other U.S. cittes have frequent in cidents involving attacks on individuals, robberies and so on, but mass violence like that in Los Angeles is comparatively rare. What have the city authorities done to improve the situation since last year's fearone outburst! It would seem that such basic social-erils as, bud housing, unemployment and lack of recrushional fieldities.

The primary purpose of the Manpower Mobility Program is to provide financial assistance to Canadian workers who are unemployed and find it necessary to move to other areas in Canada of greater employment opportunity. The program is national in scope providing for loans or grants to workers and their families to cover the cost of moving and resettlement

when it is clear that the move is in their own and the country's best interests. The Manpower Mobility Program is an important part of the Government of Canada's over-all manpower program which, within the framework of general economic policy, is designed to help maintain full employment and make the best possible use of the country's manpower resources.

### A Question of Safety

As the search continues for the killer of Georgia Jackson, the 20-year-old Ayimer waltress who disappeared on her way home from work about a month ago, Chief Constable Harold Henderson of the western Ontario tobacco-area town has defended his role in the early

town has detensive innestigations.

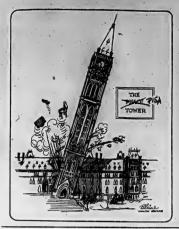

Without attempting to weigh any pros or cons in this particular case, the observations of Chief Henderson throw some light on two matters of public interest the disappearance of young people from their homes and the limited resources of the police in some of the smaller

centres.

The parents of the dead girl had told police they were convinced thist their daughter had been adducted and probably murdered. Later they complained the police had told them their daughter had probably left home daughter had probably left home person and her name and description circulated throughout the province. ### **An Important Message** to all STUDEBAKER owners and buyers

After serving the transportation needs of North America for more than 114 years, Studebaker has discontinued the manufacture of automobiles.

But, Studebaker of Canada, Limited wants all Studebaker owners and buyers to know that it will continue to provide nationwide availability of parts and service.

This will be accomplished through Parts Depots, listed below, which are strategically located across Canada. If a servicing dealer does not have needed parts on hand, most parts in most areas are available by overnight delivery. More than \$20,000,000 worth of parts and accessories are inventoried in our North American warehouses to protect Studebaker owners' investments, and to assure them continued service from their cars. (Studebaker of Canada, Limited is still supplying parts for Packard vehicles, although production was discontinued some ten years ago.)

> 6402 Cote de Liesse Rd. nines. Manitoba 1474 Wellington Avenue Hamilton, Ontario 349 Ferrie Street Vancouver, B.C. 1098 Southwest Marine Drive

The national network of Studebaker Service Dealers will continue in operation - with facilities to perform any service your Studebaker may need. In communities where there is no Service Dealer, any independent garage can secure genuine Studebaker parts through the nearest Service Dealer or Parts Depot.

The 2-year or 24,000-mile warranty on Studebakers will be honored by the dealer from whom you purchased your car or by any authorized Studebaker Service Dealer. You need not have any concern regarding this warranty; its obligations will be honored for any Studebaker that is still within warranty.

This continuation of service and availability of parts is your assurance that you will be able to maintain your Studebaker in good mechanical condition for many years.

Because it is, and always has been a fine car, we are confident that you will continue to receive a full measure of value from your Studebaker.

By Geo. H. Carver Sports Editor

Bobby Huli is perhaps the only athletic hero extant who has walking sports pages announcing statistics of record-breaking feats.

Jean (Mrs. Grant) Kells and Leis (Mrs. Chris) Akey not only believe in letting the world know they are Hull fans but advertise the fact, in color.

The attractive Point Anne matrons have sweatered themselves in rainsent that announces to all and sundry the up-to-the-minute scoring records of their

They exercised the feminine prerogative of "being Dark-haired Joan selected black as the back und of her standing edition. Her brunette buddy is preferred pale blue.

Lats yetlerred pais blue.
Their brev's name is breeflined in a bosom streamer. It also appears on the "back page" in ceiteful red and green letters.

The manachi depleting Bobby's record-equaling "yir and the "bluetetin new mark at "all" when the proposition spinces on the "first page" also week "It" on the right arms is the new Anneau "5.54" the time of the history making gath.

als "52" and "53" appear in not a few places on

"We'll go farther than that" they said, "We'll in the numbers of Bobby goals put on trousers, in have to, and who cares if we look like giraffer."

Parther than that the girls have been instru-mental in having a white canvas banner, 50 by 3 raised on the Point Anne industrial prevention staff at the plant. The barner reads "Point Anne the Home of Bobby Hall, the NHL's Greatest."

Bobby's "sandwich girls" so to speak, developed the a of preclaiming their here's achievements via the eater route, practically overnight.

Up to this time Joan had been wearing a Black Hawks lacket whenever he scored — showing her loyalty that way. The night he scored the "51" gave the girls the dea of doing something in a bigger way.

Jazz, by the way, works in a plant that naturally is a hot bed of Cahadless fans. She has had a lot of fus "giving and taking" even to laying the odd, bet with a "boss".

Lois had access to some figures plans which.

Id he cut out of material. The idea was born —
the girls went to work. By Sunday they had their

And an off-the-best regression to the Athambra-Shriner collicials who are sponsoring the testimonal diamer to Hull later on. What better jets than to have Lois and Joan dubbed "Miss Shriner" and "Miss Albis en-try and have them lead the parade in their pully and consted "creat pages" to the head table. Personally I know they's be tickled to death.

I asked the girls if Point Anne as a whole was solidly behind Hull and the Hawks.

They agreed that Ox Point like any other com-munity in Canada has its quots of fans supporting other fears in the league than the Black Hawks.

"But" they said, "the undernesth loyalty, as a whole, is ta\_Bobby Hall, Community pride has taken its place although, there are some who do not like Bobby through some silly sentimental ideas."

The girls waved gaily as they left this sports den "Sixty or bust" they warbled.

(left) and Lois Akey believe in advertising. Their sweater "sport pages" carry the feats to date of their home-town hero Bobby Hull.

### NATO Stresses

France's insistence on placing its national sovereignty before the realities of modernty military defence is a blow to western solidarity. Yet it is the logical outcome of President de Gaulle's pursuit of policies aimed at making the country answerable only to itself.

The irony of it is that France is just as vulnerable today as it was in 1940. It could not stand alone in any future conflict — a fact it well knows and recognizes. Otherwise, why has France agreed that alled forces may return in the event of war?

the event of war?

The posttion of Canadian NATO forces is a
good illustration of the strategic blunder France
is committing for the sake of keeping up
patriolic appearances, Hitherto the North
Allantic Treaty Organization came under an
integrated command. Now France is institution
that Canadian and other fohelign troops must
come under French command. t Canadian and other for the under French command.

come under French command.

The upshol is that Canada is abandoning the ROAF air division headquarters at Mets and the bomber and trapport lation at Marville and transferring the patter operation to German bases. Some 180 beforehursters staff in Parts are also involved in the withdrawal.

The operation may be a gradual one and possibly will not be completed for a year or more. The propersion may be a gradual with the processing the property of the property o

Since the end of the last war NATO has been since the end of the last war NATO has been fashioned into an efficient military organization. This is all the more remarkable considering its international character. Only recently a force of about 1,000 Canadian troops from Camp Gagetown, N.B. took part in NATO winter exercises in Norway.

At least, France is remaining a member of NATO and as before will be bound by the treaty articles which say an attack on any one member will be considered an attack on all. Nevertheless, its strictures on other NATO forces currently based on French soil cannot but impair the overall military efficiency of the organization.

### Bilingualism Sidelight

Canada's embattled Justice Minister, Lucien Canada's empattled Justice Minister, Lucien Cardin, is equally fluent in French (his mother tongue) and English. And look what a fix the use of English (which he employed in the recent Commons debates on the Spencer and Munsinger affairs) landed him in.

That, in effect, is the interesting point alsed by Ottawa Cilizen writer Charles Lynch. What price billingualism." Observed "What price bilingualism," observes Lynch, after last week's events on Parliament Hill.?"

"It has been long claimed," he goes on, "that if there were more bilingualism ground, the country would be in better shape."

country would be in better shape."

Lynch then reviews the events known to all and adds, "Now the important thing in all this, of course, is to observe whether Mr. Cardin's mastery of English and French was indeed the asact that it is supposed to be."

A slight point perhaps, for the Commons would have got the ministers message one way only the ministers may be related in from French had Mr. Cardin chosen to use that language.

woun rave got the minister's message one way recommendation from the process of the control of the process of t

English anyway?

Is English (the language of business and to all intents and purposes the official tongue of this country) to be supplanted by French? In these circumstances, French for employment purposes is likely to be about as useful in Canada as Gaelic in Ireland. The net result will likely be to increase unong English-speaking people in the Otlawa region and possibly an exolusi of this group to other centres.

By Geo. H. Carver Sports Editor

With the final chips of the schedule falling into re, il seems the lowly Bruins could very well be dealer in the mad roulette race for the National they League champlouship.

Up there in the ivery tower of leadership the care Black Hawks and the Montreal Camelian at each other's threats in a mad dash for the loop and the little-heard-of Prince of Wales Trophy.

With the Hawks and the Habs reaching out for the icague title, and the Leafs and Wings nudging each other for third place, the don't-give-a-damn-Bruins are readying their role as giant-hillers.

are resting their role as glanklillers. They can resting upon somebody's apple cart, particularly the fruit segmen of the little and little for most of the little and little for the cart of the little segment of the litt

The Causdiens, which never needed the whip in the drive is the wire, have the best bilizanced club— including the bench— in the league! But even this does not make them invincible against a fired-up Bos-ton club. They could lose one or both of the remain-ing games with the Bruins.

So at the risk of being called a half-traiter in s hotbed of Hawks and Hull, I'm looking for the bs to win the league champiouship—and the Hawks take the Stanley Cup home.

All right officer, I'll go quietly...

Safety in the Air

Flying, as we noted recently, is one of the safest modes of travel. It is a lot safer than driv-ing a car and there are statistics to prove this

contention.

The Toronto Star's travel editor, Gerry Hall, in a recent article on this theme, noted that in a recent article on this theme, noted that two separate air-disasters near Tokyo. These crushes brought the commercial airline toll to more than 550 with not much more than two months of the

## Wildcat Strikes

Ontario Labor Minister Rowntree's warning on wildcat strikes is timely. He has suggested that any increase in such strikes will lead to public demands for legislation to permit court action for damages against unions.

"In the final analysis," he told the "In the linal analysis," he told the legislature, "it will depend on how responsibly the partles to collective bargaining approach their confrontation, whether there are further legal provisions enacted in the public interest to restrict their freedom of manoeuvre."

A rather circumspect statement perhaps, but it carries a clear implication that wildcat strikes are not in the public interest. Nor do they

help the economy.

The minister said there were 37 wildcat strikes last year and the total number of strikes was 51 more than the 188 in 1964. They involved almost 90,000 employees compared with 52,000 in 1964. Sixty per cent were in manufacturing

Dwight Storey, legislative director of the United Steelworker, negassatures, elees the Steelworker, of America, elees the Steelworker of America, elees the sare a minor factor in the province's industrial or crust-responding to the province's industrial or crustrations encountered as a result of the legislative blars that prevent unions from bargatating on new issues that arise during the

bargaining on new issues that arise using site of a collective agreement.

But surely this is all the more reason for restraint. If an agreement has been reached both parties should stick to it, and no further bargaining permitted until the time agreed for the next round of discussions. If every little point of an agreement were to be made subject to periodic argument there would be chaos on the industrial scene. istrial scene. As it is, 37 wildcat strikes in a year are a

measure of a certain degree of irresponsibility on the part of workers. It all comes back to Mr. tree's statement that in the final analysis. "it will depend on how responsibly the parties to collective bargaining approach their confrontation."

It is not suggested that the breakdown of

negotiations, or failure to honor agreements, are invariably the fault of the unions, and yet there is a feeling that the wildcat strike is a that has been employed too often of late.

Land has been employed too offered last.

# **MANPOWER** MOBILITY **PROGRAM**

# Widening the Employment Horizon—for job seekers

The primary purpose of the Manpower Mobility Program is to provide financial assistance to Canadian workers who are unemployed and find it necessary to move to other areas in Canada of greater employment opportunity. The program is national in scope providing for loans or grants to workers and their families to cover the cost of moving and resettlement

when it is clear that the move is in their own and the country's best interests. The Manpower Mobility Program is an important part of the Government of Canada's over-all manpower program which, within the framework of general economic policy, is designed to help maintain full employment and make the best possible use of the country's manpower resources.

DON'T BE AN APRIL "BEAT THE 5% SALES TAX"

By Geo. H. Carver Sports Editor

"I dumon," said the man, scratching a sparsety-thatched skull with a gnaried forefinger," what some people gain by knocking their home town, whether it be a metropolis or a shanty-town in darkest Arizons."

"I've lived here in Belleville nigh on fifty yours I'll admit it is no Shangri La - neither is it a st town in an Oniario Death valley," he said.

"Sure it has imperfections. Show me a guy whe sts his home balliwick is perfect — and I'll show a runner-up to Ananias' title."

"There's a lot of things here we haven't got I them are things we don't want."

"Sure we have a couple of gaping holes in the down wan bridegework, but we have hopes that business stistry will fill the gaps.

"We have minor sports irganizations that cater needs of baseball, softball, hockey and soco ded youngsters - and doing an all-out job.

"There may be better towns and whatnot in Canad but I've been told - and have experienced - that expatriat sons as well as natives, always find Belleville a nic place to come back to.

"I'm a General Tire Specialist

...and I'm proud of it!"

I've made a thorough exploratory on the General Safety-Jet Tire and my diagnosis should give you complete assurance that its internal qualities are as sound as its exterior is handsome. I found full 4-ply nylon protection which showed less bulkiness, even flexibility, and cooler running characteristics. If your budget is on a diet, consult with me today!

#### Security Again

Ronald Ramsey is a 27-year-old American tho until recently worked with a Los Angeles

who until recently worked with a LOS Angeles group recording anti-war speeches for broadcast by Radio Hanol in communist North Viet Nam. The radio tapes, aimed specifically at U.S. fighting men in Viet Nam, were reported to have n routed to Hanol via agents in Czechoslovakia and Quebec of all places.

ow Ramsey is in Canada where he is seeking political asylum. Small wonder that the ent was asked this week whether the American is a security risk and how he managed

For some reason Creditiste Gerard Laprise's question was ruled out of order, but Ramsey's question was ruled out of order, but Hamsey's name came up again when State Secretary Judy LaMarsh, replying to Marcel Lambert (PC-Edmonton) said he was paid expenses and the "usual honorarium" of \$150 by the CBC to go to Toronto last week for an appearance on the television program This Hour Has Seven Days.

One wonders why the CBC bothers with such lesser lights as Ramsey, but the fact is he will be seen in a forthcoming program on Viet Nam.

Well, well! Ramsey and his fellow travellers in Los Angeles have been campaigning actively against the American role in the Viet Nam war and apparently are in league with people of views in Quebec, not to mention the communist world.

communist world.

At a time when the subject of security is so much in the public might in Canada, can Ramsey much to condetered a prime example of one who is engaged in subvexive activities? But no one can ever get the government to admit such things. The recent hassie to parliament over the Spencer and Munsinger affairs are cases in point.

In any event, it is not surprising to learn

that Ramsey had had his U.S. passport revoked. He says this was because of his anti-war broadcasts, but the U.S. state department says it is because he did not repay a state department

loan.
Washington it seems, is as coy about revealing the real reasons behind its counter-espionage
activities as are the authorities in Ottawa. But it
is quite likely that so long as he remains in this
country Ramsey will be kept under close

#### Youth Awards

It is a measure of Prince Philip's empathy with people in every walk of life that conversational ease is quickly established in his presence.

Jack McKiibin, a 19-year-old Peterborough youth, found that out when he received his Duke or Edinburgh award from the prince in Ottawa

the other day.

Prince Philip, who is as much at home ne oner cay.

Prince Philip, who is as much at home
making intelligent small talk as he is addressing
a group of scientists or businessmen, asked
McKibbin what his hobbits were.

"Cars and girls," was the reply.

"Do you ever mix them?" the Prince
inquired.

The royal visitor had a word with each of the 18 youths from across Canada who received

the awards for top achievement in public service and physical fitness. The awards were established by Prince Philip 10 years ago and are open to boys from all over the Commonwealth.

boys from all over the Commonwealth.
Peterborough must be well endowed with
young people who measure up to the exacting
standards of the award. In addition to McKibbin
two other boys from the 'clty, James Cooney, 18,
and Donald White, 18 received the gold award.
Only two other Canadians have won the gold

An invited great was a aportizant from south of the border who suggested Canadians step squawking about Vancouver not getting a bockey franchise. "You guy may have got the worst of the deal but didn't we swap Cassins Cisy for a bockey team?"

The five o'clock shadows eventually concentrated their attention on the upcoming brawl, heavyweight bouts, champions and boxing in general,

He will also be the third white champion since Joe is took the crown from Jim Braddock way back in

American negroes have dominated the world title cene since Joe Louis won the crown. The only other hite champion since Louis were Rocky Marciano of rockton, Mass., and Ingemar Johanssen of Gotenberg, weden.

In winning, Chuvale would become the sixth neo-erican to take the title. The others were Bob mimmons, England, Burns, Max Schmeling, Ger-ny, Frime Caners, Italy and Johanssen.

However, Churale will not be recognized in his actions of Tereste or in the previous of Outarie to the mixed-up heavyweight glussion.

This because Clay is generally recognized through-the world as the "people's champ" but as far as Werld Bosting Association is concerned, Ernie rell hold the crown. Outarie falls under WBA juried.

tion of Nota Scotla, Jack Delancy of Quebec, Eddle balson of Nota Scotla, Jack Delancy of Quebec, Eddle balson of Ontario and Frenchy Belancy and Jimmy clarmin of British Columbia — but nofe with the ex-ption of McLarnin attained Burns' prominence.

If memory is correct, McLarnin was one of the champions as rare as the poet's day in June. He had a shrewd canny manager who invested wisely every cent his boy made. McLarnin died leaving a six-figure estate.

Burns was the gamecock of the heavyweigl rooster pen. In 60 houts from 1901 to 1920 he was beaten only four times, secred 38 knockouts and wa never knocked out himself until his last fight.

# Stating with Samuel We are pleased to announce that commencing

next Saturday, April 2nd, Weekend Magazine will be published with each Saturday edition of The Intelligencer.

THE INTELLIGENCER, YOUR FAVORITE NEWSPAPER, brings you in diate coverage of the news, as it happens, from Belleville, elsewhere in Canada and from around the world. Writers such as Cynthia Lowry reviews TV and Radio, while Bob Thomas covers the movie scene Geo. Carver keeps you informed on sports and Mary Moore's column helps the housewife. Besides its own staff of accomplished writers, The Intelligencer also receives reports from the wires of Canadian Press, Associated Press and Reuters. All this and more every day in your Intelligencer!

GOOD FOOD EDITOR MARGO OLIVER travels to all corners of the world to bring you new yet economical recipes that will help add to your reputation as a genius in the kitchen. Cookies may be her feature one week, coffee-cakes the next. Margo recently came back from Spain with exciting new recipe ideas for olives. She has also travelled right across Canada and from New York to California to bring you the latest in easy-to-prepare and good-to-eat recipes. Margo tests each recipe personally in her "bonne cuisine" Weekend Kitchen. All her food ideas are designed to suit the many different occasions that you face from day to day right in your own home; special birthdays, Saturday night suppers,

STORIES BY ANDY O'BRIEN for the sports-minded take fan and fanatic behind the scenes at exciting events here and abroad. Andy went to Tokyo for the Summer Olympics and to Innisbruck for the Winter Olympics. When the World Cup Soccer Championships were held in Chile, Andy was there. The British Empire Games found him in London. Closer to home the Stanley Cup and the Grey Cup are just two of the fascinating events Andy covers for Weekend Magazine. Spiced with wit, salted with anecdotes - features by Sports Editor

AND THAT'S NOT ALL! Each week many additional features include stories and pictures on fashions, family care, grooming and home furnishings by Women's Editor Doyle Klyn. You'll have fun too with Nipper, Doug Wright's lovable cartoon character There is something for everyone each week in Weekend Magazine. Don't miss it!

Weekend Magazine brings you the finest Canadian writers, photographers and artists to keep you informed on the exciting events in today's Canada and the world at large, in Canadian terms.

Weekend Magazine brings you stories of interest to Canadians, no matter where in the world they occur and sends experienced editorial teams to such far away places as Africa, Viet Nam and the Caribbean, wherever the news is happening. From food and fashion to sport and adventure, from medicine to politics to personal drama - Weekend Magazine reflects the variety and tempo of modern Canadian living.

Don't delay! Make sure you receive your copy! For home delivery call 962-9171 to ensure that you start to receive Weekend Magazine every Saturday, beginning next Saturday, April 2nd, in the Belleville Intelligencer.

# How come 1 out of 5 people in Ontario is insured by Metropolitan Life?

When people in Ontario take our life Insurance, they rully sent thir maney a worth. That is what they gat from the reposition. We protect more people in Canada than any other life insurance company. How come? We can arrange to keep your insurance going without paying a peoply if you become disabled. We can also take the strain off your walled by putting your dividends to take the strain off your walled by putting your dividends to work buying extra insurance for you. Our Family Security Check-Up is another very good reason for calling your Meteopolitan representative.

This is a down-to-earth analysis of your family's financial security. Sometimes it even turns up assets you never knew you had.

Let a trained Metropolitan adviser do the job for you.

Let a trained meta-post and free.

A lot of people in Ontario do. Why don't you? There's no obligation ... except is those you lose. Millions choose Metropolitan Life

This is the Centennial Symbol.

What does it mean? What does it mean to you?

We hope it means more than any other symbol you have ever been exposed to. Because this symbol is Canada. And Canada is you. It is composed of eleven triangles. Ten representing

Liticomposed of eleven triangles. Ten representing the Provinces, and the other, our northern territory. The triangles are arranged as a stylized Maple Leaf, the identifying symbol for Canada and Granadians. It is your symbol and it can help stand for your involvement in Canada. It can show your pride. It can interpret your conbusiants for a greater Canada. From this point on, all Canadians will be caught up in the remaining segiment of the propriet. 10 teachers. in the growing excitement of honouring 100 years of Confederation. Individuals will soon be involved with heir own Centennial projects. Many communities

have already begun to embark on large scale Cen-tennial endeavours. Industries have initiated wide-spread Centennial editors of varying degrees. All Canadians working to say "Canada" to the world. You will be setting this symbol everywhere. Like to be one of those behind it? We'd like you to use the symbol in your home; your effice; at school; in your plant; wherever you can. The manual noted below may help to explain how you can best use it. Remember, this is an opportunity for all of us to sunderstand Canada, its history, in present and its future. Let's explore what can now be called a great country. Let's all be a symbol for Canada, the sames

country. Let's all be a symbol for Canada, the same way this is a symbol for Centennial."

London Life repeats the question 3

### "If you died tomorrow, would your affairs be in the shape you want them to be in?"

Would your wife know where to find important papers? Would she have an adequate income? Would she know where to turn for advice? If you're not sure, read on, London Life explains the steps you should take:

PERHAPS THE FIRST step is to turn off the Television set for an evening. Sit down with your wife and talk—not about a bigger TV set or a new car, but about the future of your

family,

Talk about your plans for retirement. Have
you started a savings fund? What monthly
income will you have at age 65?

Talk about your plans for educating the
children. Are you setting money aside? Will
you have coough?

you nave enough:

Talk about your family's fature if you should
die. Do you have enough life insurance? Would
your wife have to go out and work?

Try to build a jong-tange financial plan for
your family. If you already have one, afalyze
it for weak points. Decide how you can correct

Talk to a lawyer about wills. You and your wife should have a will. This guarantees that your money goes where you want it to go. Your lawyer can advise you on types of wills and ways of minimizing succession duties.

Tour wife should have a will just in case tou both die in an accident. Include plans or guardianship of the children and the man-gement of money which they would inherit. Remember—your lawyer is a specialist.

a plan tailored to your fa-

Talk to a banker, trust officer or Insertment dealer. Don't attempt to get rich overnight on the basis of office gossip or "confidential" tips. Talk to a man who knows the investment field. Explain your present situation and savings objectives. He has the training and experience to give you sound advice.

When you have taken care of wills, life insur-ance, investments and so on, put all the impor-tant papers where they will be safe and access-ible. London Life recommends two places:

ible. London Life recommends two places:

(1) Softey deposit box. It should hold your deeds to property, certificates for stocks and bonds, and valuable personal papers.

(2) Printerpapers box at home. This should hold your deverything your wife needs in a generageoy. For example, all insurance policies should be been. Also your family's wills, back income tax returns, bank statements, marriage licence and birth certificates.

### Talk to your wife

Spend another quiet evening going over all the steps you have taken. Discuss life insurance. Retirement. Investments. Wills. Go over the letter you have written. Be sure you both understand it.

You and your wife will feel better when you have set your affairs in order. The time it takes is a small investment when you think of the tangled mess you might leave behind.

### Winds of Change

A resolution passed at a meeting of the ebec wing of the Liberal Federation of Canada last weekend is a clear indication that winds of change are blowing across Canada, particularly with regard to the relationships between English and French-speaking Canadians.

More and more French is becoming a prime

requisite of employment in the civil service, and this no doubt accounts for the resolution in question. It says that the federal civil service should be transformed "so that all Canadians will be able to deal with the federal government e able to deal with the federal gove elr maternal language" if it is Fr

English.

Other resolutions passed reflected the same trend — that French language schools, for example, be established from coast to coast spherer: the density of the French-Canadian population justified it and that the system of teaching French in English schools be improved by using modern teaching methods; and that French be made an official language in Ontario

It would be self-defeating if what basically is intended as a means of achieving closer understanding between the two founding races should become a source of renewed

Taken to its logical conclusion, insistence on billingual skills could result in French Canadians gaining the upper hand in the management of the affairs of this country. For English Canadians this would be embarrassing, to say the least of it.

### A Question of Art

In a sense it is a pity that Toronto decided not to purchase that expensive hunk of bronze statuary for display at the new city hall. Future generations might find it interesting—a "deciden-

statuary for display at the new city hall. Puture generations might find it interesting — a "state-ment of our time," as we have heard it put, even if the cost to the 1866 taxpayer were as "way out" as the municipal building itself.

312,000 is a lot of money to spend on an inanimate object. And surely, if Toronto wants to stay with it in the sphere of urban development and art, there are artists apiently in Canada who could contribute any formations. The contribute of the co

why not make provision at Toronto's city hall (a building that is very much in the modern fillom) for the exhibition of works by contempor-ary Canadian artists, whether they use paint and nto's city ish, the camera, clay or bronze?

This would give added interest to the

By Geo. H. Carver Sports Editor

TORONTO—From New York, Chicago, London and Europe, the world's best sports columnists called it, "Farce, flance, sheeper".

A brilliast rapier-like left jab, launched in rapid-fire acquences at times, was Clay's most forceful weapon. He lauded several hard blows to Churale's jaw, but with the exception of one or two rounds, they falled to slow the Canadian.

The fight clearly showed that neither fighter carries nockout punch—or that both can take one.

In my mind, when Chuvalo was lacking, came in he falled in follow up an advantage. On occasion he had Clay off balance with solid clips se jaw, but let II go at that.

Boxing-wise Muhammid All was the master, raned early to stay away from the ropes. His evi-tion was brilliant but his features showed orid-the Chuvalo punches at fight's end.

The fight cut the stigm of defeat at the hands of an nown. Instead of obscurity, he stands on the threshold

At least he did much to help crase the stigms from boxing as he did in his Patterson fight. He proved in deleat that the "invincible world's greatest" can be beaten. I hope some day he does—just once.

The Jockey Club, and Les Ekrlick, chairman of the Outarie
Harness Horsemen's Association, headed percolation com-

then increased if to \$10,000. The horsemen dropped\_their de mand is 48 per cent.

On March 18, the Greenwood group went on strike. The strike moded March 19 when horsemen secepted the \$11,000 daily purse distribution with the stipulated that process would be cut to be a strike the strike of the strike the s

rear at the end of Greenwood summer meet.

The jockey club later revoke the agreement, saying its re-resentatives exceeded the club's authority.

## A Foot on the Brake

Finance Minister Mitchell Sharp has nbined skilful measures to place a brake on essive spending and inflationary pressures terally with a plea to the public itself to rule restraint

exercise restraint. He set a government lead in this key matter of rostraint by announcing a cut of \$35 million in the federal building program. Canadians, he suggested, abould go easy in their demands on the economy and resist what he termed the tempdation to exploit bargaining positions created by the current boom. On the contract of the current boom, and the set of the contract of the current boom. On the contract of the current boom of th

wage demands and usassimple in to so, naive as to rely down prices.

But Mr. Sharp is not so, naive as to rely shriely on an accommodating public. There had so be some other means of graftly but firmly look to be some other means of graftly but firmly Macmillan achieved this some year ago with the introduction of premium bonds to encourage saving. Mr. Sharp has done it with a plan to force big business to save about \$375 million over

18 months.

Hall were meeting a Metro zecutive committee
in an effort to save the 67-year-old structure
from demolition to make way for a commercial

They are likely fighting a losing battle.

Toronto is one of the fastest-growing clites on
the continent. It is Canada's most important
business and commercial centre and while

business and commercial centre and white euilture and history are not being neglected, commercial interests tend to come first. It cannot be said, moreover, that the old city hall is an elegant structure. It certainly does not blend with the molemnight outling that has taken its place. Whatever is built but the site of the old city hall may turn out to be a glass and concrete palace, but that, more and more, is Tournot toddy, and other citles like it.

A pinched nerve doesn't mean one that has been broken or in-terrupted. It means that pres-sure is being exerted on it.

There are, of course, several causes of a painful arm. When a nerve is involved, the pinch may not be in the arm, and in that case an X-ray of the arm will not reveal the cause.

will not reveal the cause.

The plach, or pressure, may be is the neck or in the shoulder. The necve roots emerge between bones of the neck, there this neck the vertebrae, or a dilocation, can plach the nerve. Another possibility is enlargement of a portion of one vertebra called a provide of one in the nerve. Another possibility is enlargement of a portion of one vertebra called a provide of the boom is necessary.

Never take a chance on dis-betes! For better understand-ing of this disease, write to Dr., Moher, in Chicago Bones, Bl., Moher, Bl., Dunsee, Ill., Or a copy of the booklet "Dista enclose focasky Disease." Pieras enclose a long, self-addressed, stamped crustope and 22 cents in odn to cover cost of printing and hand-tone.

Still to come, says Olan, are fist fights against many of the National Hockey League's tough gays such as Montreal Canadiens John Ferguson, Toronto Maple Leafs' Orland Kurtenbach and Boston Bruins Ted Green.

Plager's hockey-fight background is probably un-alleled. "I remember my first fight while playing"

I was about It and jumped off the bench when one of my team-mates was losing a fight. If was a pretty good fight, and I knecked the guy down. The only thing was that my father was the referree and he threw me out of the game."

A few years later Plager joined the Guelph team— Rangers farm club — on the Ontario Hockey As-lation junior "A" league.

"At the end of the sessen Bush promised to pay me \$2.00 for every pound I weighed over 165 when I respected the next fall. I showed up weighing 224 pounds.
